KIRAN MAMADAPUR

Business Analyst | UI/UX Designer

+91 8217626873 | kiranmamadapur4669@gmail.com | Bangalore, India

LinkedIn | Portfolio | THE OFF GRID (Live)

SUMMARY

IBM Certified Business Analyst with an MBA who bridges business requirements and user experience. Experienced in BRD/FRD/RTM documentation, BPMN process modelling, wireframing in Figma and Balsamiq, and Power BI reporting. Delivered a 24% CRM efficiency improvement as an intern and built THE OFF GRID, a live D2C e-commerce platform, from requirements to deployment. Seeking a hybrid Business Analyst / UI-UX role.

TECHNICAL SKILLS

Business Analysis: Requirements Elicitation, Stakeholder Analysis, Gap Analysis, BRD, FRD, RTM, Use Cases, User Stories & Acceptance Criteria, UAT, Process Mapping, BABOK, Jira

UX & Product Design: Wireframing, Prototyping, User Flows, User Journey Mapping, Information Architecture, Responsive Design, User Personas, Design Handoff

Tools: Figma, Balsamiq, BPMN, Draw.io, MS Visio, Lucidchart

Data & Reporting: SQL, PostgreSQL, Power BI (DAX), Tableau (Basic), Excel (Pivot Tables, Charts), Google Sheets

Technology: React, HTML, CSS, JavaScript, Node.js, Git / GitHub

Methodologies: Agile (Scrum), Sprint Planning, Waterfall, SDLC, QA Collaboration

EXPERIENCE

Founder & Product Owner | *THE OFF GRID, Indian D2C streetwear brand* 2026 – Present

- Defined the product and wrote requirements for a mobile-first online store after benchmarking Snitch, Nobero, Wrogn and Rare Rabbit.
- Created the brand identity and SVG brand system, and prioritised features such as returns and exchanges, gift cards and abandoned-cart recovery.
- Own delivery end to end: requirements, UX design, development, deployment and admin operations.

Independent BA & UI/UX Projects | *Self-initiated concept work with prototypes (fictional clients)* 2026

- **UrbanThread, fashion shopping app:** Redesigned multi-filter browsing, wishlist and a three-step guest checkout; wrote the BRD summary, FRD and user stories with acceptance criteria. Case Study | Prototype
- **MediCare Plus, appointment management:** Designed online booking, a doctor day view and admin reporting; mapped current and future-state BPMN flows and wrote the BRD, FRD and RTM. Case Study | Prototype
- **NovaBank, mobile banking:** Designed beneficiary validation, transfer limits and one-time-code security; specified functional and non-functional requirements, UAT scenarios and a Jira-style backlog. Case Study | Prototype
- **TalentBridge, recruitment pipeline:** Designed a candidate pipeline board, interview scheduling and weekly reports; produced personas, a journey map, wireframes and acceptance criteria. Case Study | Prototype
- **QuickBite, food delivery service:** Mapped ordering, restaurant and rider journeys; defined KPIs and a traceability matrix linking requirements to user stories and test cases. Case Study | Prototype

Business Analyst Intern | *Girias Investment Pvt. Ltd.* Jan 2024 – Jun 2024

- Ran end-to-end CRM effectiveness analysis for retail operations serving 100+ customers using user interviews, stakeholder meetings and walkthroughs.
- Performed gap analysis and documented findings in BRD/FRD-aligned formats; defined user stories with acceptance criteria and partnered with QA to validate solutions.
- Ran feedback surveys (90% response rate) analysed in Excel, surfacing 73% ease-of-use and 79% of user pain points.
- Developed a CRM optimization roadmap adopted by senior management, driving a 24% efficiency improvement, 6+ hours/week saved per user and a 17% lift in user satisfaction.

PROJECTS

THE OFF GRID E-commerce Platform | *React, Node.js, PostgreSQL, Figma* Live Store | Case Study

- Designed and built a full-stack store (React/Vite, Node.js/Express, PostgreSQL) deployed on Vercel and Render, with auth, cart, checkout and orders.
- Shipped Quick View, colour and fit filters, a PIN-code delivery estimator, Notify Me waitlist, returns and exchanges, gift cards and abandoned-cart recovery.
- Secured the admin with TOTP two-factor authentication, rate limiting and CSP headers; added admin analytics with audit logging.

Healthcare Process Optimization, Health First Care | *BPMN, Balsamiq, Power BI, Visio*

- Built As-Is and To-Be BPMN models, finding 3 workflow bottlenecks across 150+ daily patient admissions; designed Balsamiq wireframes for scheduling and discharge journeys.
- Authored BRD and FRD with 12+ requirements and an RTM linking each to design specs and test cases; built a Power BI dashboard for 12+ stakeholders.
- Projected impact: 30% reduction in patient wait times (45 → 32 minutes) through redesigned scheduling workflows.

CERTIFICATIONS

- IBM Certified Professional Business Analyst, IBM Corporation (2025)
- Business Analysis and Process Management, Coursera (2025)
- Data Modelling with Power BI: Advanced DAX Calculations, Coursera Project Network (2025)
