

KIRAN MAMADAPUR

Business Analyst • UI/UX-Focused Product Analyst

+91 8217626873 | kiranmamadapur4669@gmail.com | Bangalore, Karnataka, India | linkedin.com/in/kiran-mamadapur

PROFESSIONAL SUMMARY

IBM Certified Business Analyst who bridges requirements and user experience — translating stakeholder needs into wireframes, user flows, and process-optimized solutions. Delivered a 24% CRM efficiency improvement and a projected 30% reduction in operational delays by pairing structured requirements documentation (BRD/FRD/RTM) with Balsamiq and Figma wireframing to validate usability before build. Skilled in user research, journey mapping, BPMN process modeling, and Power BI dashboarding, with strong stakeholder communication across Agile and Waterfall environments. Seeking a hybrid Business Analyst / UI-UX role where requirements gathering and user-centered design intersect.

CORE SKILLS

UX & Product Design: Wireframing, Prototyping, User Flows, User Journey Mapping, Usability Considerations, Information Architecture (basic), User Personas, Design Handoff to Dev/QA

Business Analysis: Requirements Gathering, Stakeholder Analysis, Gap Analysis, Use Cases, BRD, FRD, RTM, Process Mapping, User Stories & Acceptance Criteria, Requirements Elicitation, BABOK, UAT Validation, Process Improvement, SWOT Analysis

Design & Prototyping Tools: Figma, Balsamiq, Draw.io, MS Visio, Lucidchart

Data & Reporting Tools: Power BI, Tableau (Basic), SQL, Excel (Pivot Tables, Charts), Google Sheets, Google Forms

Methodologies: Agile (Scrum), Sprint Planning, Waterfall, SDLC, BPMN, Functional Testing & QA Collaboration

Soft Skills: Analytical Thinking, Cross-functional Communication, Collaboration with Design/Dev/QA, Attention to Detail, Requirement Prioritization, Change Management

EXPERIENCE

Business Analyst Intern | Girias Investment Pvt. Ltd. Jan 2024 – Jun 2024

Project: CRM Effectiveness Analysis — end-to-end CRM performance and usability analysis for retail operations serving 100+ customers.

- User research & requirements:** Gathered requirements through structured user interviews, stakeholder meetings, and informal walkthroughs; distributed meeting agendas and Minutes of Meeting to align teams.
- Usability gap analysis:** Performed gap analysis to identify CRM usability issues across user levels; documented findings in BRD/FRD-aligned formats with a UX lens on friction points.
- User stories & design validation:** Defined user stories with acceptance criteria for CRM enhancements and partnered with QA to validate solutions against real user workflows.
- User experience measurement:** Ran customer feedback surveys (90% response rate) and analyzed results in Excel — surfacing 73% ease-of-use, 76% interaction efficiency, and 82% data accessibility scores, and identifying 79% of user pain points through structured interviews.
- Impact:** Developed a CRM optimization roadmap adopted by senior management, driving a 24% efficiency improvement, 6+ hours/week saved per user, and a 17% lift in user satisfaction (73% → 90% ease-of-use).

PROJECTS

Healthcare Process Optimization — Health First Care (IBM BA Certification Capstone) 3 Months

Tools: Balsamiq, Figma-style wireframing, Power BI, BPMN, Excel, MS Visio, Lucidchart, MS Word

- Wireframing & user workflows:** Designed wireframes and mock-ups in Balsamiq to visualize improved patient scheduling and discharge journeys, translating BRD/FRD requirements into user-facing flows before build.
- Process & journey mapping:** Built As-Is and To-Be BPMN process models, uncovering 3 critical workflow bottlenecks affecting 150+ daily patient admissions and reshaping the end-to-end patient journey.
- Requirements traceability:** Authored BRD and FRD covering 12+ functional/non-functional requirements with an RTM linking each requirement to design specs and test cases.

- **Stakeholder-centered design:** Conducted stakeholder analysis (influence-interest matrix) to prioritize which user needs shaped the wireframes and dashboard design.
- **Dashboard UX:** Built an interactive Power BI dashboard for wait times, satisfaction scores, and resource utilization, designed for at-a-glance use by 12+ clinical and administrative stakeholders.
- **Projected impact:** 30% reduction in patient wait times (45 → 32 minutes) through redesigned, user-validated scheduling workflows.

Deloitte Australia Data Analytics Job Simulation | *Forage Platform* July 2025

- Completed a forensic technology data analysis simulation; built an interactive Tableau dashboard for business intelligence reporting and applied data-driven decision-making in a consulting context.

EDUCATION

Master of Business Administration (MBA) Jan 2025

A.S. Patil College of Commerce, Vijayapura | CGPA: 8.02

Bachelor of Business Administration (BBA) Aug 2022

A.S. Patil College of Commerce, Vijayapura | CGPA: 8.10

CERTIFICATIONS

- IBM Certified Professional Business Analyst — IBM Corporation (2025)
- Business Analysis and Process Management — Coursera (2025)
- Data Modelling with Power BI: Advanced DAX Calculations — Coursera Project Network (2025)
- Oracle SQL Basics (2025)
- Career Essentials in Generative AI — Microsoft & LinkedIn Learning (2025)
- Career Essentials in Data Analysis — Microsoft & LinkedIn Learning (2025)

LEADERSHIP & ACHIEVEMENTS

Team Head, National Level Management Fest “Siddhatva”

- Led a cross-functional team of 15+ members organizing a 500+ participant management festival.
- Coordinated with 20+ stakeholders managing a ₹2.5L budget, creating project timelines, weekly status dashboards, and stakeholder update reports.
- Delivered the event 10% under budget with a 95% participant satisfaction rating.
